

**eTable.**Principal Components Factor Analysis for the Assessment of Theta Coefficients<sup>a</sup>

IT-FDI Question	Factor 1: IT-FDI P	Factor 2: IT-FDI S
1	.76	.15
2	.76	.29
3	.78	.08
4	.63	.01
5	.79	.004
6	.18	.78
7	.11	.84
8	-.05	.75
9	.30	.45
10	.13	.36

<sup>a</sup> Data from 100 participants were included in the principal component factor analysis. IT-FDI=Italian version of the Facial Disability Index, IT-FDI P=physical function subscale of the IT-FDI, IT-FDI S=social/well-being function subscale of the IT-FDI.
