					Alliance	
--	--	--	--	--	----------	--

(approved by N&TR Editorial Board 10th October 2017)

Please use the space below to clarify any issues from the above table:

Notes:

My collaboration is having involved Sarah Jakes, who is now a board member of the New Nicotine Alliance, as an 'expert by experience' in the research work I have completed on e cigarettes for relapse prevention. The New Nicotine Alliance is an advocacy organization in support of tobacco harm reduction. Apart from seeking PPI advice and feedback from Sarah, and acknowledging her involvement in our research, I have no further association with the NNA and have never received any financial payments from the NNA or any other organization.

* Tobacco industry funding includes funding from a manufacturer of tobacco products, the Tobacco Institute, Council for Tobacco Research, Center for Indoor Air Research, law firms or other interests representing a tobacco company to conduct research or provide consultation.

§ Relevant pharmaceutical industry relationships that are related to nicotine or smoking cessation products. Also relevant are for-profit companies that sell products relevant to tobacco control policies (e.g., educational materials, test kits, indoor air ventilation products).

¶ Examples of government agencies are U.S. National Institutes of Health, Agency for Healthcare Research & Quality, Centers for Disease Control and Prevention, state or local health department.

⌘ Private foundations that fund nicotine or tobacco control/smoking cessation research or programs. Examples are RWJF, American Legacy Foundation.

¹ Consultancy is defined a payment from an organization for providing advice or expertise on a topic.

² Honoraria are payments for making a presentation to scientists, clinicians, administrators, the press, etc.

³ Does not include ownership of mutual funds that may include stocks in these industries
