The Endocrine Society Placement Service

Positions Available—For Positions Available notices or display advertisements, rates are as follows: $50.00 per column inch (6 lines, each 21 picas long, 3½ inches, with each line containing approximately 60–62 characters, letters, symbols, or spaces); $25.00 for each additional inch; and $150.00 for each ¼ page (3½ inches × 5 inches). Minimum space is one inch with one inch units thereafter. An additional charge will be made for typesetting of display advertisements. The advertisement will be scheduled for the next available issue if not otherwise specified. Payment or purchase order must accompany insertion copy. Classified advertisements are noncommissionsable to agents.

Positions Desired—Candidates registered with The Endocrine Society Placement Service are allowed one nondisplay Position Desired advertisement not to exceed 50 words (5 printed lines of 60–62 characters, letters, symbols, or spaces per line; a total of approximately 300 characters). The issue in which the advertisement appears will be based on date of receipt of copy unless specified for later issue. For individuals NOT registered with the Placement Service, the charge for a Position Desired advertisement is $10.00 per insertion and is limited to 50 words or 5 printed lines. Publication by registered or nonregistered candidates in additional issues of ENDOCRINOLOGY/JOURNAL OF CLINICAL ENDOCRINOLOGY & METABOLISM, $10.00 per entry; additional 50 word space, $10.00.

The candidate’s annual fee for The Endocrine Society Placement Service is $10.00.

The employer’s annual fee for The Endocrine Society Placement Service is $50.00.

Correspondence related to resumes should identify candidates by code number at the end of the resumes. Candidates will be identified for qualified requesting party and pertinent information forwarded promptly. There is no charge to employer registered with the Placement Service. The fee for applications to nonregistered employers is $2.00 each.

A search of the active applicant files will be conducted when the employer sends the Placement Service a description of the qualifications desired. Copies of the applications of qualified candidates will be forwarded to the employer. The fee for a search is $2.00 per reproduced form; minimum fee, $10.00.

The Endocrine Society endorses equal opportunity employment practices and reserves the right to edit all copy and to refuse advertisements not in consonance with these principles. In printing advertisements, The Endocrine Society assumes no obligation as to qualifications of prospective employees or responsibilities of employers. Accuracy and completeness of all listings are the responsibility of the submitting party.

THE APPLICABLE FEE IS PAYABLE IN ADVANCE AND MUST ACCOMPANY ORDER.

Address all correspondence to: Mr. Billy M. Clement, The Endocrine Society Placement Service, 9650 Rockville Pike, Bethesda, MD 20014. Telephone: 301/530-7020

- POSITIONS AVAILABLE -

CLINICAL ENDOCRINOLOGIST: With certification or eligibility for subspecialty boards wanted to join an internal medicine group currently comprised of thirteen physicians, including one endocrinologist. This is a referral group contiguous to a 300-bed hospital in a small community that has a wide referral base. Our group is fully supported by surgical subspecialties including cardiovascular surgery, ear-nose-throat, neurosurgery, urology, orthopedics, and OB-Gynecology. New associate would be salaried under an employment contract for the first year and by mutual agreement would then be considered for full partnership at the end of one year. Enjoyable southern climate with ocean facilities and many other hunting and outdoor opportunities located nearby. Send CV to: Valley Diagnostic Clinic, 2121 Pease Street, Suite 1A, Harlingen, TX 78550.

FELLOWSHIP IN ENDOCRINOLOGY. Opening for a one year fellowship in Endocrinology, beginning July 1, 1982; a second year fellowship may be available to selected candidates. The fellowship is oriented to intensive training in clinical endocrinology and investigations. Inquiries should be sent to: N. A. Samaan, M.D., Chief, Section of Endocrinology, The University of Texas System Cancer Center, M.D. Anderson Hospital and Tumor Institute, Houston, TX 77030.
POSTDOCTORAL FELLOW: The Division of Endocrinology at The Pennsylvania State University has a Ph.D. position available for an individual with experience in autoradiography and/or cell kinetics to pursue in vivo and in vitro studies of hormone effects on cell kinetics in endocrine-dependent tumor models. Please send CV to: Richard J. Santen, M.D., Chief, Division of Endocrinology, The Milton S. Hershey Medical Center, The Pennsylvania State University, Hershey, PA 17033

- POSITIONS DESIRED -

Ph.D., 1979, Endocrine physiology; CNS/pituitary (ACTH, β-LPH, β-endorphin) response to stress, analgesia, circadian rhythm, bioassay, RIA, chromatography, cell culture, histochemistry, interferometry; College teaching 4 yrs.; Avail. September 1981; Prefer northeast; Desire research/teaching position. E-455-1

Ph.D., 1977; Neuroendocrinology and aging; Training in RIA of peptide and steroid hormones, hormone receptor and biogenic amine assays; 5 yrs. college teaching experience; Many publications; Avail. fall; No geographic preference; Salary negot. E-456-1

Ph.D., 1976, Physiology/Biochemistry; Mechanism(s) of action of glucocorticoids and receptor biochemistry, mechanisms of resistance in human lymphoid cells; Tissue culture experience; Desire research/teaching, or industry; Avail. September 1981; No geographic preference; Salary negot. E-457-1

M.D., 1974; ABIM, 1980; Board eligible July 1980; Research in thyroid hormone transport and control of TSH secretion; Clinical experience with emphasis on pituitary and thyroid; Teaching students; Desire academic position or group practice; Avail. July 1981; No geographic preference; Salary negot. E-458-1

Ph.D., 1978; Endocrinology/Cell physiology; Peptide hormone action at the cellular level in normal and pathologic states; Receptor phenomena, transport, intermediary metabolism, organ maintenance, etc.; Cellular electrophysiology, differential interference microscopy; Desire research/teaching; Salary negot. E-459-1
